

Art and Design

In year two the children explored a topic all about India. As part of their Art and design they studied clothing and textiles in India and looked at some Mango patterns. As India has a wide range of textiles of varied designs and manufactured by numerous techniques when compared to other countries in the world. The styles depend upon the location of the place, climatic conditions, cultural influences and trade contacts. The varied topography of India from the snowy mountains to the rich river valleys and from the lush forests to the arid deserts as well as the various cultures brought down here from the invaders have influenced the growth of a number of textile weaves. By the end of this week year two were able to apply techniques and personal interpretation to create their own work. This was celebrated by the school in this display. It also fitted in very well with the whole school multi-cultural theme for year group boards!
